TO OUR SUBSCRIBERS

The Journal has adopted the plan of notifying its subscribers of the date when their subscriptions expire, so that each subscriber may pay in advance if they desire to continue reading the Journal, or have their names taken from the list if they no longer care to receive the paper.

An opportunity will be given everyone of our readers to have plenty of time to make their payments, so that no injustice may be done to anyone.

The postal laws require this regulation. Many of our subscribers have requested it, and both patron and publisher will be benefitted by this plan.

Our subscribers have been very loyal to us and we appreciate their patronage and kindness and hope that all may understand our reason for adopting the plan and cooperate with us.

ELECTION IN PERRYSBURG

The election in Perrysburg was characterized by friendly feeling in every quarter. Democrats and Republicans, wet and dry sympathizers touched elbows and manifested a feeling of neighborliness, while soliciting the favor of the voters.

The only organized campaigning was that done by the dry forces.

The candidates for village, township and school offices either made no campaigns, or contented themselves with individual efforts to secure the support of their friends.

There was little or no party feeling stirred up—simply a "go-as-you-please" effort to win.

FIRST OF THE COURSE.

The first of the P. H. S. Course of entertainments is dated for November 9 at the P. H. S. Auditorium when the Ole Theobaldi Concert party will appear. Of Theobaldi the Politiken, of Copenhagen, Denmark, says:

"It is the first time since the death of Ole Bull that Copenhagen has heard an artist of this class. Theobaldi played the greatest masterpieces and hypnotized his audience throughout the entire program. Every note was as distinct as a beautiful pearl."

—A short but important business meeting of the Presbyterian C. E. society will be held at the church parlors this Friday evening. All members urged to be there.

Government experts say that the kelp growing along the Pacific coast can be cheaply utilized to produce six times as much potash annually as this country has imported from Germany. Undoubtedly the enforced cessation of imports caused by the war is going to be permanently beneficial to this country in many ways.

The war has been called an insane outburst of the nations, a sort of international brainstorm, but it should be remembered in connection with the terrible fighting on the Bug river that the name is pronounced "boog."

A man in California lately took oath before a notary that he is still living. Plainly there was little reliance to be placed on his simple word.

Another assurance that Russia is on the water wagon for good lies in the fact that it is seeking free access to the ocean.

REAL GREATNESS.

Christ has given us a measure of greatness which eliminates conflicts. When His disciples disputed among themselves as to which should be greatest in the kingdom of heaven. He rebuked them and said: "Let him who would be chiefest among you be the servant of all." Service is the measure of greatness; it always has been true, it is true today, and it always will be true, that he is greatest who does the most of good. And yet, what a revolution it will work in this old world when this standard becomes the standard of every life. Nearly all of our controversies and combats arise from the fact that we are trying to get something from each other. Our enmities and animosities arise from our efforts to get as much as possible out of the world—there will be peace when our endeavor is to put as much as possible into the world. Society will have taken an immeasurable step toward peace when it estimates a citizen by his output rather than by his income and gives the crown of its approval to the one who makes the largest contribution to the welfare of all.—Extract from W. J. Bryan's lecture, "The Prince of Peace."

Optimistic Thought.
It is well to remember the multitude is versatile, the populace forgetful.

Distress in the Stomach.

There are many people who have a distress in the stomach after meals. It is due to indigestion and easily remedied by taking one of Chamberlain's Tablets after meals. Mrs. Henry Padghan, Victor, N. Y., writes: "For some time I was troubled with headache and distress in my stomach after eating, also with constipation. About six months ago I began taking Chamberlain's Tablets. They regulated the action of my bowels and the headache and other annoyances ceased in a short time." For sale by all dealers.

To make identification easier, DO YOU WANT A FRUIT OR STOCK FARM?

State Registrar of Automobiles W. H. Walker will require each applicant for a license to give the serial factory number of his machine when he applies. This rule goes into effect the first of the year. With this information on file the department will be better enabled to trace the owners of stolen cars, good well and cistern, and plenty of fruit of all kinds. Only two miles from Monclova.
